

Introducing the *VIDEO PIPELINE INSPECTION SYSTEM* **Economy Trailer** from Municipal Equipment Sales, Inc.

The "Economy Trailer" design is an entry-level unit that allows a contractor or City to video sanitary or storm drain line infrastructure to be in compliance with the State and Federal Guidelines.

If you are not quite ready for a pipe inspection system costing up to \$150,000, we can furnish you with our Economy Trailer system

for less than half that amount. This unit comes with training of the operators and delivery in the southeast U.S. All equipment is upgradeable to truck-mount systems. It is mainline-rated and comes with a computer system that will identify all faults and burn a CD or DVD report.

Many configurations are available according to your needs.

See our Video Inspection Systems page at municipalequipment.com for this and other truck-mounted options.
