PAS: PERKINS AUTOMATED SIDELOADER

Maximize your fleet's effectiveness by converting a manual side loader into a fully automated residential collector!

The Perkins Automated Sideloader (PAS) allows the conversion of most drop-frame manual sideloaders into a fully-automated residential collector. This joystick control-based system can retrofit to your existing trucks, automating your fleet within a two-day installation time...at a fraction of the cost that you might expect. Full automation is now within reach.

The PAS breathes new life into your fleet, increasing collection speeds while reducing worker fatigue and injury. Let's get you automated!

- ◆ Fast 10-second cycle time
- ◆ Extra-long 55" reach
- ◆ Lightweight design
- ◆ Simple to use controls
- ◆ Powerful 400 lb lift capacity
- ◆ Fits most manual sideloaders
- ◆ Sturdy construction
- ◆ 1-year limited warranty

Specifications

- Fits most drop-frame manual sideloaders (sideloader must have packer control switch in cab)
- Available in LH and RH orientations to better fit the widest variety of truck brands
- Powerful 26K actuator provides the lifting action
- Up to 57" reach from the closed position
- Optional gripper arm sets of high and low mounting
- 10- second complete cycle time with 10 GPM
- Auto-retract feature reduces operator error by retracting the PAS automatically whenever the vehicle brakes are released
- Multi-function electronic joystick enables combined one-touch movements for more efficient dumping action
- Lifts most sizes and brands of plastic carts from 30 to 96 gallons
- Maximum weight capacity of 400 lbs at 2,000 PSI
- Lifts carts on or off a curb with no adjustment
- Rubber-padded arms are gentle on cart surface yet have superior no-slip gripping action
- Lightweight design adds about 980 lbs to weight of the truck for increased fuel savings
- Powder-coated finish in standard safety yellow color, but custom colors available at additional expense
- 1-year warranty
