

The MES High Cube Truck

Mounted on the chassis of your choice, the MES **High Cube Truck** is designed for ease and accessibility throughout. The interior is divided into two areas: an operator control room with a passenger door or walk-through into the drivers area, and an equipment room outfitted with a tool cabinet, work bench and efficient storage compartments for system accessories.

All TV control components are modular in design and are mounted for quick and easy operator inspection, adjustment and servicing.

Each **High Cube Truck** is customized to fit each customer's unique needs.
